

Welcome to Oden Control AB

Oden Control AB is since 1996 a provider of innovative reduction gear solutions for a variety of industries and applications

Valve actuators

The **Oden Electrical Actuators** consists of four basic units in different sizes, all using the patented **Oden Gear**. These units, combined with rotary or linear modules control with high precision all types of valves on the market. Until now several thousands have been shipped to the process industry.

Oil pressure control

Oden P30L1 linear actuator
System Six AB
Robertsfors, Sweden

Exhaust valve control

Oden P30L1 linear actuator
Västhamsverket (a district heating plant)
of Öresundskraft AB
Helsingborg, Sweden

Inspection

Oden P30R rotary actuator
Mälarenergi AB (a district heating plant)
Västerås, Sweden

Controlling a diaphragm valve from Saunders

Oden P30 L2 linear actuator
Astra Zeneca AB (pharmaceutical)
Södertälje, Sweden

Oil pressure control - Hora Valve

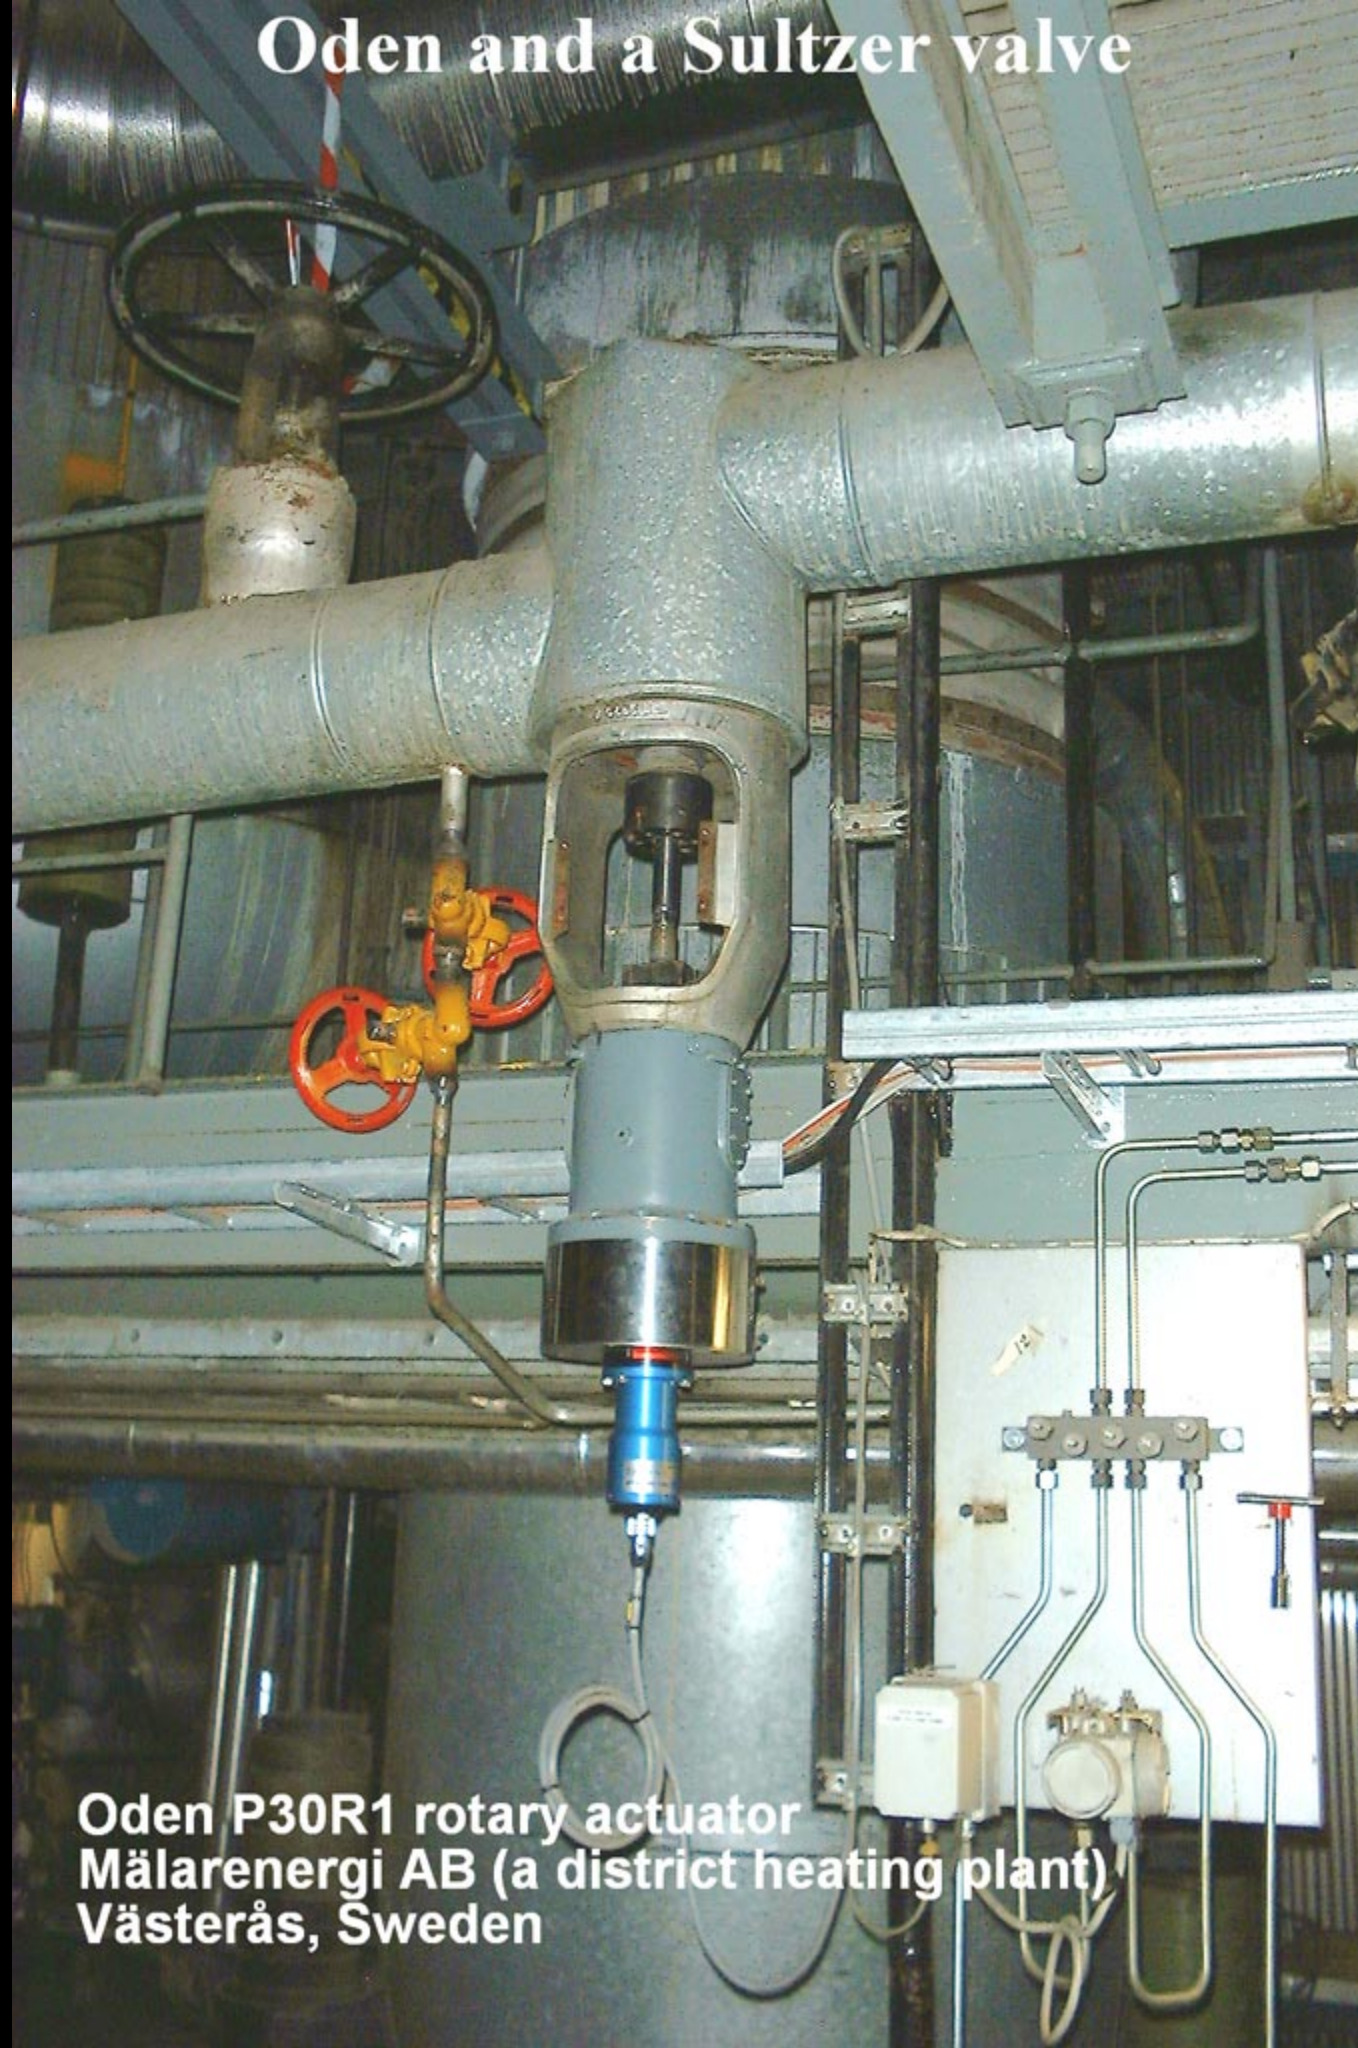

Oden P30L1 linear actuator
Västerhamn (a district heating plant) of
Öresundskraft AB
Helsingborg, Sweden

Schopper&Faser and a Sultzzer valve

**Schopper&Faser (ABB) rotary actuator
Mälarenergi AB (a district heating plant)
Västerås, Sweden**

Oden and a Sultzzer valve

Oden P30R1 rotary actuator
Mälarenergi AB (a district heating plant)
Västerås, Sweden

Sultzer Valve control

Oden P30R1 rotary actuator
Mälarenergi AB (a district heating plant)
Västerås, Sweden

Sulzer valve control

Oden P30L1 linear actuator
Mälarenergi AB (a district heating plant)
Västerås, Sweden

Steam control

Oden P30R1 rotary actuator
Mälarenergi AB (a district heating plant)
Västerås, Sweden
